

SOLUTIONS FOR SPONSORED RESEARCH PROGRAMS

LET US HELP YOU FILL THE GAPS!

Contract/Grant Review & Negotiation

We have over 10 years experience in drafting, reading, interpreting and negotiating contracts. We can communicate directly with the other party, we can provide a "red-line" review to send to your general counsel's office to speed up its review which you can then send to the other party; it's your preference.

Export Compliance

University activities often meet the definition of fundamental research. However, this is not always true. It's important to know which activities may require additional review and documentation to prevent an export violation. Hundley Consulting can examine your program and train employees to identify situations that need a risk management assessment by the sponsored research office.

COI Programs

Conflicts of interest can be real or perceived. A conflict doesn't have to be actual to create headaches for the individual and the institution. Transparency and full disclosure are key to management of COI's. Let us help you set up a program, review existing policies and procedures or provide an external 3rd party review of the forms submitted to your institution.

Intellectual Property

It's hard to allocate precious resources to a full-time IP Specialist when your university doesn't receive a high volume of invention disclosures each year. That doesn't mean you have to go it alone! We're happy to help with policy and procedure development, review of disclosures, selection of patent attorneys and marketing to potential licensees.

Short & Long-Term Staffing

Do you have unfilled job postings? Staffing gaps due to concerns over continued funding? Hundley Consulting, LLC has the knowledge and ability to provide experienced, flexible, professional research administration staffing solutions for your institution. We can customize the terms of the professional services agreement to fit the unique needs of your situation.
